***Election/Restriction***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claims 46-51, 67-74, drawn to charging a toll by matching a vehicle's location to a predetermined map of charge areas, classified in class 705, subclass 13.

Group II, claims 52-57, drawn to providing a notification regarding a toll status to someone external to a vehicle, classified in class 705, subclass 13.

Group III, claims 58-66, drawn to providing observation means for a toll notification, classified in class 705, subclass 13.

Group IV, claim 75, drawn to a card used to charge a toll, classified in class 705, subclass 41.

Group V, claims 76-82, drawn to notifying a user about charge area information, classified in class 705, subclass 13.

Group VI, claims 83-85, 89, drawn to charging for a toll based on the distance traveled by a vehicle, classified in class 705, subclass 13.

Group VII, claims 86-88, drawn to charging a toll by utilizing interruption instructions and measuring lapses of time, classified in class 705, subclass 13.

Group VIII, claims 90 and 92, drawn to processing a credit transaction, classified in class 705, subclass 39.

Group IX, claim 91, drawn to assessing whether or not a position signal is correctly detected in a toll system, classified in class 705, subclass 13.

2. The inventions listed as Groups I-IX do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Each group is directed toward a distinct special technical feature, as specified next to each respective group listing above.

3. A telephone call was not attempted because the requirement for restriction is complex. See MPEP § 812.01.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Susanna M. Diaz whose telephone number is (703) 305-1337. The examiner can normally be reached on Monday-Friday, 9 am - 5 pm.
